2) Torrents: If you're looking for a free option, peer-to-peer file sharing software BitTorrent is the best choice. You can download the app and set up a server; then you'll be able to send and receive files with other people who also installed the software. When downloading files, make sure to use the "share" option instead of "download"—otherwise, your download will be lost forever. 3) Bookmarking: Check your browser's toolbar at the top of your screen for websites that have handy "Bookmarks" that can help you find these resources during an emergency.
